

CONSERVING RESOURCES

Sorting Activity

One way to conserve resources is by recycling. Look at the items below. Which objects are trash, and which ones can be recycled? Draw a line connecting the object to its correct bin!

The diagram shows various items and two bins. A line connects the cardboard box to the recycling bin, and another line connects the fish bones to the trash bin.

- cardboard box
- paper
- plastic bottle
- candy
- aluminum can
- plastic wrap
- egg shells
- trash can
- fish bones
- glass bottle
- recycling bin

RECYCLING

TRASH
