

ICE CREAM CONES

Paper Ice Cream Cone

Have you ever dreamed of having an ice cream parlor and serving ice cream to all your friends? You can do that with these fun paper ice cream cones!

MATERIALS:

Cone stencil	Scissors	Paint
Brown paper	Glue	Paint brush
Pencil	Foam balls	

1 Paint the foam balls the color of your favorite flavors of ice cream and set them aside to dry.

2 Ask an adult to help you cut out the cone stencil included with this activity.

3 Once the stencil is cut out trace the stencil onto the brown paper using the pencil. Trace enough cones to match the number of foam balls you painted.

4 Now having the cones drawn out, cut them out along the penciled lines.

5 When the foam balls are dry, take one and wrap the brown paper around the cone. The curved edge touching the foam ball. The paper should cover the bottom third of the foam ball.

6 Make a thin line of glue along one of the edges of paper to hold them together.

7 Now your cone is ready! Set up a shop and pass them out!
