

TORNADOES

Art Project

Form a tornado from torn paper!

MATERIALS:

old magazines
glue
white paper

markers or colored pencils
(optional)
assorted beads (optional)

- 1** Look through old magazines or newspaper to find pictures that have lots of dark colors. Cut or tear them out.
- 2** Tear these pictures into smaller pieces. It is okay if the pieces are different sizes and shapes.
- 3** Take your white piece of paper. Glue your smaller pieces of paper down to form the shape of a tornado. If you would like, you can also glue down beads to show debris.
- 4** Now you are finished! Once it is dry, you can add other things to your paper, like trees, houses, or cars. If you draw any people, make sure to keep them safe!
